

Ransdell Makes Plea For Enactment of Ship Subsidy Bill

Declares Greater Merchant Marine Is Vital to Keep U. S. on Par With British; Cites Relative Strength

From The Tribune's Washington Bureau WASHINGTON, March 25.—Senator Ransdell, of Louisiana, Democrat, speaking in the Senate this afternoon, strongly advocated the enactment of the ship subsidy bill which is backed by President Harding and the Shipping Board.

How Great Britain stands in relation to the United States as to such ships is shown in figures presented by Senator Ransdell, giving the number and tonnage of vessels of 10,000 gross tons and over having speeds of twelve to twenty knots and over.

The Cunard liner Mauretania, holder of the world's record for the fastest trip made by a merchantman across the Atlantic, left Southampton yesterday for New York via Cherbourg.

Fleet Mauretania Back in Service After Repairs

Ship Finance Plan Adopted by Board And Its Operators

Final Agreement Reached by Managing Agents and Kimball at Conference Here; Funds Concentrated

Final agreement on the new financial plan to be made effective through the Shipping Board and its managing agents was reached yesterday at a conference at 45 Broadway between Harry Kimball, vice president of the Emergency Fleet Corporation, and the committee representing the operators.

Details of the new system have been under discussion for several weeks. The principal change will be the concentration of funds, previously held by the individual operators in separate banks, under control of the board, in central institutions.

The fleet corporation also will take charge of funds abroad and will receive and disburse money through correspondents of banks in the United States.

The shipping board officials and representatives of the managing agents also have come to agreement on a division of the expenses which will be met by the government and those which the operators should assume as part of the commissions paid for handling the vessels.

The new plan becomes effective in the United States on April 15 and abroad on May 1. Details will be made public soon, it was said yesterday.
